DESCRIPTION

I am a software enthusiast, developing with Java, C/C++, C#, HTML, CSS, JS/TS, PHP, SQL, Angular, Bash script, Unity, LUIS, QnA maker and MS BotFramework. My projects can be found on GitHub. I'm in the IBDP at Bayview SS. I have a passion for AI, ML and NLP, and I love contributing to open-source and customizing different operating systems. I love to code and help others learn how to.

ACCOMPLISHMENTS

2019 - PRESENT
